

Office 365 – Download Software

1. At the top of the page, go to **Settings**  > **Office 365 settings**.

2. On the left of the page, choose the **Software** tab.
3. On the **Office** page, select a **Language**, and then choose **Install**.

Office

Install the latest version of Office

This will install the latest version of the following programs on your computer: Word, Excel, PowerPoint, OneNote, Access, Publisher, Outlook, Lync, InfoPath.

Word Excel PowerPoint OneNote Access Publisher Outlook Lync InfoPath

Language: Version: 32-bit (recommended) [advanced](#)

Note: Installing additional languages on a computer that already has this version of Office doesn't count against your install limit (5).

[Review system requirements](#)

NOTE Office installs the 32-bit version on your PC by default, even if your computer is running a 64-bit version of Windows. This is the recommended configuration.

NOTE If you are using a tablet please install the app from the App Store and use your login credentials to activate.
